

CURRENT STATUS OF RURAL ELECTRIFICATION AND ELECTRICITY SERVICE DELIVERY IN RURAL AREAS OF UTTAR PRADESH

I. Status of Village Electrification in Uttar Pradesh:

As on 31st August 2013, 10,856 villages were yet to be electrified in the state of Uttar Pradesh, out of a total of 97,942 villages in the state, as per the 2001 census.

Table 1: Status of Village Electrification in UP¹

States/UTs	Total inhabited Villages as per 2001 census	Villages electrified as on 31/03/2013 as per new definition (Provisional)		Cumulative achievement as on 31/08/2013 as per new definition	%age of villages electrified as on 31/08/2013	Un-electrified villages as on 31/08/2013 (V)
		No.	%			
Uttar Pradesh	97942	87086	88.9	87086	88.9	10856

Source: Central Electricity Authority, 31-08-2013

Therefore the total number of electrified villages in UP accounts to 88.9 percent.

The following table gives the status of electrification of the villages district and block-wise which are covered under Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY) scheme.

Table 2: District and respective block-wise status of Village Electrification in Uttar Pradesh

II. Status of Household Electrification in Uttar Pradesh:

The Census of India 2011 indicates that close to 76 percent of rural households in Uttar Pradesh continue to depend on Kerosene for lighting.

The table and figure below presents a comprehensive scenario of the sources of lighting in the state, which is as per the Government of India Census, 2011.

Table 3: Sources of Lighting in households of Uttar Pradesh

District	Total No. of Households	Electricity	Kerosene	Solar energy	Other oil	Any other	No lighting	Electrified		Unelectrified	
								No.	%	No.	%
Saharanpur	404,600	238,023	163,317	928	801	824	707	238,951	59	165,649	41

As can be seen from the above table, only rural households in the vicinity of the State Capital and those which come under the National Capital Region, and known industrial and tourist/places of religious significance have a fairly high level of household electrification, which is in the region of 70 percent, which in all the other regions, household electrification vary from 5 percent to a best of 50 percent.

Figure 1: Source of Lighting in households in Uttar Pradesh

III. Key Sources of Energy for Cooking and Heating in households of Uttar Pradesh

As is the case with the rest of India, Uttar Pradesh also has a very poor penetration of clean sources of energy for meeting the cooking and heating requirements of its communities.

Only 6.46 percent of the households in Uttar Pradesh have access to modern and relatively clean sources of energy for cooking and heating requirements, mainly LPG, Electricity and bio-gas plants.

So in effect, close to 93 percent of its population depend on firewood and other related sources of energy for meeting their cooking and heating requirements.

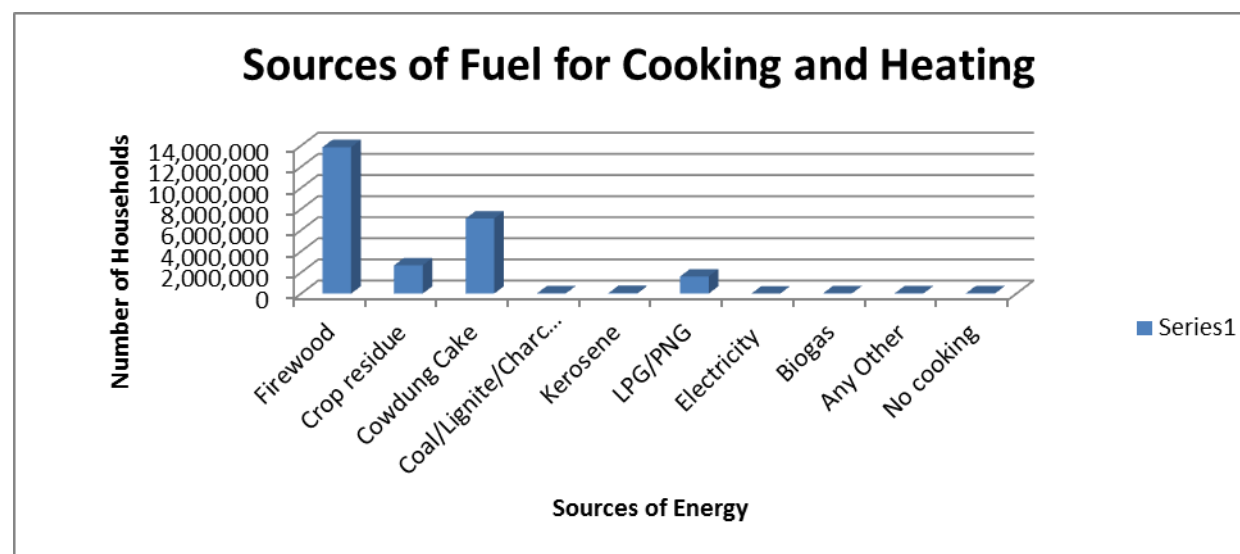

The following table depicts the situation of energy sources for Uttar Pradesh

Table 4: Sources of Energy for cooking and heating in households of Uttar Pradesh

IV. Status of Assets availability in households of Uttar Pradesh:

As can be read from the table below almost 56% of the households have access to personal assets and require electricity to operate them.

The table and figure below presents a comprehensive scenario of the assets in rural households in the state, which is as per the Government of India Census, 2011

Table 5: Availability of assets in households of Uttar Pradesh

V. Status of Electricity Supply in Uttar Pradesh:

In the 2011-12 Uttar Pradesh faced a shortage of electricity supply to the tune of 1338 Million units, which translates to a short fall in supply in relation to the demand by 19.1 percent. The short fall in electricity supply to meet the peak electricity demand was around 17 percent in the same year.

This has been the trend in the previous years too

The following table gives an overview of the electricity demand and supply situation of Uttar Pradesh in the year 2011-12

Table 6: Electricity Demand Vs. Supply Situation in Uttar Pradesh (2011-12)

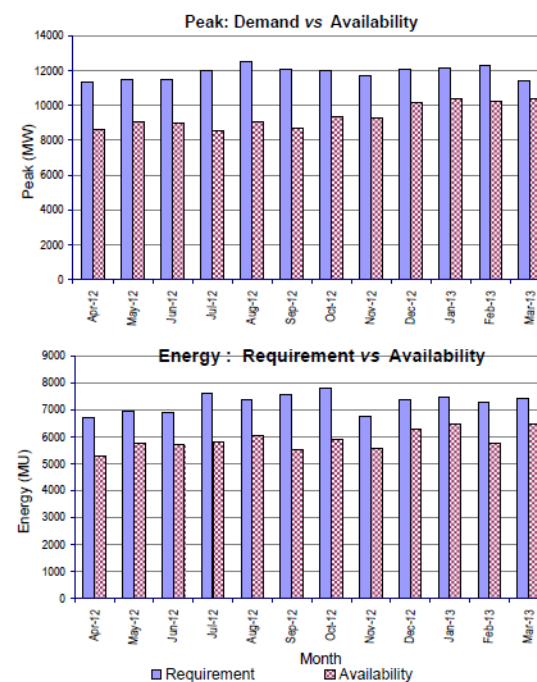

State / Region	Energy				Peak			
	Requirement	Availability	Surplus(+)/Deficit (-)		Requirement	Availability	Surplus(+)/Deficit (-)	
	(MU)	(MU)	(MU)	(%)	(MW)	(MW)	(MW)	(%)
Uttar Pradesh	87153	70509	-16644	-19.1	12500	10377	-2123	-17.0

Source: Load Generation Balance Report 2012-13, Central Electricity Authority

Further, the assessment of power supply situation in Uttar Pradesh for the year 2012-13 indicates that the energy shortage for year would continue to remain at 20 percent, while for some months, could be as high as 29 percent.

Table 7: Anticipated Power Supply Situation in Uttar Pradesh for 2012-13

Month	Peak				Energy
